

### **Repeat orders for MRS grabs**

*Port-Trade has secured new orders for grabs from customers in Norway, Finland, Denmark and Sweden. Total number of grab deliveries now approaches 200.*

Repeat orders show that customers are satisfied with previous deliveries and that we remain competitive. They are also a testament to the consistent high quality and reliability of MRS equipment.

Reflecting the wide range of the MRS manufacturing programme, the present orders include a 3,2 m<sup>3</sup> 4-rope and a 14 m<sup>3</sup> E-hydraulic orange peel grab, both for scrap, a 10 m<sup>3</sup> open 4-rope grab for potash and similar minerals as well as a 14 m<sup>3</sup> closed 4-rope grab for limestone and crushed rock.

Aiming for maximum achievable productivity and durability, every single grab is adapted to the individual characteristics of the bulk material as well as customer specification of various details.
