

# Port-Trade seeks SERVICE ENGINEERS

*We are busy and looking for two experienced field service engineers for jobs in the Nordic countries.*

## TASKS

comprise inspection, service and repair, primarily on diesel-electric mobile harbour cranes, hydraulic cranes as well as ancillaries such as container spreaders and bulk grabs.

Jobs vary and are mostly carried out at customer's premises in the Nordic countries, requiring travel by own service van or by airplane, as appropriate. Remote support and guidance of customers by telephone and e-mail will also be needed. You will, of course, have your personal, well-equipped service van as well as laptop, telephone, etc., needed for the job.

## EXPERIENCE

with PLC controls (e.g. CodeSys and S7), electrics (1000V AC / 1500V DC) and hydraulics is necessary

and a background as electrician or automation technician would be appropriate.

You need to have all-round skills and also be able to handle mechanical tasks and assembly work, when needed.

Necessary product training takes place internally and at our partners' premises.

## YOU ARE

service minded and dependable, with a profound sense of responsibility. You are well organized, analytical and able to work independently and flexibly, alone and in loyal collaboration with your colleagues. Experience with MS Office is needed.

You speak and write English and 'Scandinavian' fluently.

For the right person, the job offers exiting opportunities for personal and professional development, in an international environment.

## IF YOU ARE INTERESTED

you are welcome to call Port-Trade at **+45 7628 0102**. Alternatively, Peter Muller directly at mob. **+45 2032 0772**.

## SEND YOUR APPLICATION

with all relevant information, in writing to **Port-Trade ApS**  
**Karetmagervej 9, DK-7000 Fredericia.**  
Or by e-mail via our website  
**[www.port-trade.com](http://www.port-trade.com)**

Port-Trade works in the Nordic countries and sells mobile cranes and ancillary equipment for cargo- and materials handling in ports, terminals and industrial plants. Port-Trade are agents for Konecranes Gottwald, Aumund Group, VDL, MRS and E-Crane.
